PORTFOLIO

[Blog link ↗](#)

[GitHub link ↗](#)

[Portfolio link ↗](#)

PROJECTS

[Android SDialogs Library ↗](#)

Apr 2023 - May 2023

Android Java library: Open-source and visually impressive dialog creation. Features over 8 types of beautifully designed dialogs to enhance user interactions.

[Android SCoverView Library ↗](#)

May 2023

Custom Cover View library for Android: Design stunning book covers, anime art, videos, and more. Easy-to-use with pre-designed templates for creative projects.

[Android STextView Library ↗](#)

Oct 2022 - Nov 2022

Expandable TextView: Like Instagram or Facebook, it offers Show More/Show Less toggle button at text end. Supports markdown in content for enhanced formatting.

[Android SConnect Library ↗](#)

Nov 2022 - May 2023

Android Java library: Open-source, enables quick and efficient HTTP/S requests with concise code using Okhttp client. Facilitates seamless connections to REST APIs, websites, and more.

[Android SToast Library ↗](#)

Nov 2022 - Apr 2023

Android Java library: Open-source and feature-rich for elegant toasts. Includes two main types: ModeSToast with 6-7 modes and AdaptiveSToast adjusting to device theme.

[Android SReporter Library ↗](#)

Aug 2022 - Nov 2022

SReporter library: Simplify sending reports, notifications, and app logs. Seamlessly use Telegram APIs or Discord Webhooks for convenient delivery. Ensure efficient and proper report handling.
